## Delivering the Metro Tunnel

The Metro Tunnel will untangle the City Loop and create room for an additional 500,000 peak passengers every week across Melbourne, slashing journey times by up to 50 minutes a day.

Thanks for your patience as we deliver Melbourne's biggest ever upgrade of power, signalling and communications, paving the way for more trains, more often across the network.

## Plan ahead to avoid long delays

In July, buses will replace trains on the Sandringham line on weekends. Please be aware that buses will also replace trains on sections of the Frankston and Stony Point and Cranbourne and Pakenham lines, and that trams and roads also have planned disruptions.

We estimate an additional 60 minutes will be added to most people's journey. To help you plan ahead, here are some tips:

- If you can, avoid peak times and travel before 7am or after 9am.
- Remember the Early Bird fare. Touch on and off before 7:15am on weekdays and that part of your travel is free.
- We expect other public transport services and roads to be busier than usual.
- Footy fans should allow extra time to get to the game in July.
