

## Rail Operations Enterprise Agreement 2019 Enterprise Bargaining Update

Team,

Today we held a livestream to share information about your Proposed Enterprise Agreement. During the livestream I walked through some of the key claims and explained how they differ from the current Agreement and the offer made in September 2019.

The session runs just over half an hour and as I know some of you on the frontline would not be able to attend, the video is now available to view on demand.

You can find it here: <https://web.microsoftstream.com/video/64f8f84f-6d0b-425d-a9c1-2bc408eb953a>

For our Drivers, the video and the slide pack are now available on PaperLite.

We will also follow up questions on Slido that were unable to be answered – answers will be posted on the Metro Enterprise Agreement website soon [www.metrotrains.com.au/enterprise-agreement](http://www.metrotrains.com.au/enterprise-agreement).

### What's next?

- There will be two more livestreams planned for later in the week – one focused on Loco Division and one focused on Rail Ops.
- Expect that your leader will reach out to organise a time to provide further information and briefing sessions for your team.
- We will be sharing more information on PaperLite, and via emails over the next few days.
- You can submit questions at any time to [enterpriseagreement@metrotrains.com.au](mailto:enterpriseagreement@metrotrains.com.au).

Expect to see more events held via livestream in the future, and we will also always provide the videos available on demand after the event and via PaperLite. Please speak to your leader if you are having issues accessing either the livestream or the video after the event.

Regards,

Catherine

**Catherine Baxter, Chief Operating Officer**

**On behalf of Metro's Rail Operations Enterprise Bargaining Team**
