

Dear All,

We are working closely with the relevant State Government departments to gain certainty around the Permitted Worker Permit Scheme as your permit is set to expire on 11.59pm on Sunday 13 September.

In anticipation of any new permit that might need to be uploaded to the system, it is essential that your contact details are up to date in MetroMe. Check it and update it today. You can access MetroMe as follows:

- Click on this link to access MetroMe or type the full URL into your browser:
<https://performancemanager10.successfactors.com/sf/start/#Shell-home>
- You can also access MetroMe on your Metro Mobile. The App is called “Success Factors” and is in your MTM App Store.
- Enter your company ID: metrotrain
- Enter your standard username e.g. firstname.lastname followed by your standard password
- Enter your work email address, followed by your standard password.
- You will now see your home page.

Metro does not control the permits and is awaiting further advice from the State Government what the next steps are and I will communicate this when we know.

In the meantime, please continue to carry your current permit, your Metro ID and check that your MetroMe details are current.

Stay safe.

Regards,
Rob
